

Data Flow Diagram – Level 0 (Context Diagram)

The Level 0 DFD represents the overall interaction between the **User**, the **Fin Tracker System**, and **Local Storage**—capturing all major data flows at a high level.

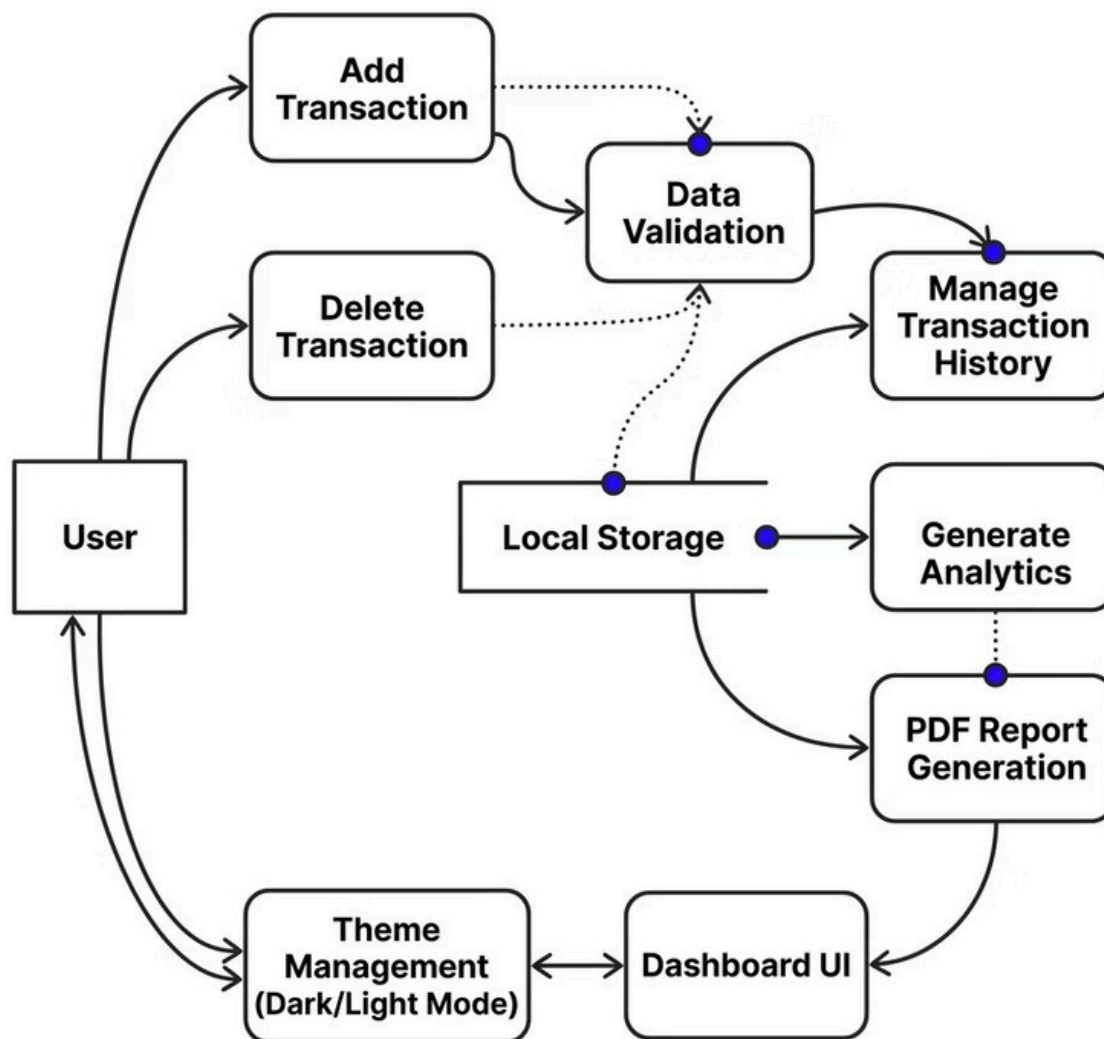

DFD Legend

- **Rectangle** — External Entity (User)
- **Rounded Rectangle** — Process (Fin Tracker System)
- **Open-ended Rectangle** — Data Store (Local Storage)
- **Directed Arrows** — Data Flow

Data Flow Diagram – Level 1

The Level 1 DFD illustrates the internal workings of FinTracker—showing how transactions are processed, validated, stored, analyzed, and presented to the user.

Core Processes

- **Add / Delete Transaction** — User input with real-time validation
- **Manage History** — Retrieve and filter stored records
- **Generate Analytics** — Compute charts and summaries
- **Export PDF Report** — Downloadable expense reports
- **Theme Management** — Dark/Light mode toggle
